Award

SAP Cloud Platform Enterprise

NORTHERN GAS NETWORKS LIMITED

UK6: Contract award notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-021388

Procurement identifier (OCID): ocds-h6vhtk-050c5a ([view related notices](#))

Published 14 May 2025, 3:30pm

Scope

Description

SAP CPEA (CPEA stands for Cloud Platform Enterprise Agreement.) is a consumption-based

pricing model. It lets customers buy, consume, and pay based on their use (with an upfront

commitment.) It is a flexible subscription that permits access to a wide range of SAP BTP services. Instead of paying for each service separately, credits are purchased in advance and

used as needed across different services. Customers pay for what they consume. NGN is looking to extend this service with SAP.

Contract 1. SAP Cloud Platform Enterprise

Supplier

- SAP (UK) LIMITED

Contract value

- £650,000 excluding VAT
- £780,000 including VAT

Above the relevant threshold

Award decision date

2 May 2025

Contract locations

- UKC - North East (England)
- UKD1 - Cumbria
- UKE - Yorkshire and the Humber

Procedure

Procedure type

Direct award

Special regime

Utilities

Direct award justification

Single supplier - technical reasons

NGN have invested heavily in SAP Hana and licences to optimise its ability to capture regulatory and non regulatory data via on-premise/cloud software and applications. NGN intend to expand the scope of their SAP licencing model to deliver key GD2 and GD3

promises. Should NGN look to other suppliers to procure similar software then we would need to invest significantly to replicate the infrastructure already built. NGN need to

progress with this contract as without it we will lose access to key critical business applications like SuccessFactors (NGN&Me) and SCP (the platform for the E&R work app, the Dispatch app etc). This contract provides NGN with security of supply around these

critical systems. With our current architecture the optimal approach would be to continue using SAP products, as the alternative would be a re-implementation of new technology, infrastructure and middleware, plus integration with our backend ERP.
