School Resource Management Advisers Programme

Since 2017 ESFA has developed the role of School Resource Management Advisers (SRMAs) to provide direct support to academy trusts and local authorities to help them identify opportunities to improve their approach to resource management. This is part of ESFA's overarching objective to help improve outcomes for pupils by schools getting the best value from their resources.

SRMAs are sector experts, such as practicing school business professionals or head

teachers with specific expert knowledge in resource management. Each SRMA has to go through an accreditation process to ensure they have the appropriate skills and knowledge to carry out the role. ESFA currently has contracts in place for the accreditation and supply of SRMAs through to August 2021.

Due to the success of the programme to date, we are looking to ensure the continued supply of SRMAs through to August 2024. ESFA wishes to contract with up to four organisations for the supply of a minimum of 50 Accredited Persons, to deliver a total of 200 Accredited Persons across the framework per year over the next three years. This will involve both the continued supply of SRMAs already accredited and the recruitment and training of new SRMAs to support the programme. The contracts will commence in September 2021 once the current contracts have ended.

The second procurement opportunity seeks one organisation to develop and deliver a consistent induction service and a robust accreditation process for all SRMA candidates that are sourced by the sourcing supplier(s). This will build on the process already developed with the current contractor and will also involve the development of a new training element for SRMA candidates. This contract will also commence on 1 July 2021.
