II.2.4) Description of the procurement

The waste collected under Lot 1 is generated through our Property Services (PS) teams who refurbish the properties, located throughout the portfolio. The PS teams will enter into a property and carryout a refurbishment which is likely to consist of replacement or bathrooms, kitchens and any other repairs necessary, which will result in mixed waste being generated. Due to nature of the works required and restrictions on space, this Lot comprises a range of different materials which are generated through the various teams who all participate in refurbishing the properties.

The Mixed General Waste generated under this Lot mainly consists of the following materials, but not limited to;

Masonry to include bricks, rubble, roofing tiles and felt;

Ceramics from bathrooms and kitchens;

Wood items;

Plumbing items to include plastic and copper (or metal) piping and fittings?

Bath and sink taps;

Metals items to include radiators, boilers, water tanks and additional pipes and fittings etc.;

- UKJ3 - Hampshire and Isle of Wight

II.2.4) Description of the procurement

The waste collected under Lot 3 is generated through our Property Services (PS) teams who refurbish the properties, located throughout our portfolio. The PS teams will enter into a property and carry out any works and do occasionally come across small amounts of Grade B Asbestos (circa. 200-300kg per annum). When such incidents occur, there is likely to be some contaminated PPE that will also need to be safely disposed of. Currently, as and when any Asbestos is identified this is called in and collection is arranged on the same day by a licenced carrier and facility. The intention is to continue with such an arrangement under this Lot. Due to the nature of this material, a quick and responsive service is required and Bidders would need to detail this within the Method Statements.
