Scope

Reference

TGCDEV MAY25

Description

Trydan is seeking to procure professional services for two wind farm developments in South Wales, from conceptual design through to securing planning consent. These services include:

- Lot 1: Environmental Impact Assessment (EIA) Support and Technical Support.
- Lot 2: Terrestrial Ecology and Ornithology.
- Lot 3: Planning Support.
- Lot 4: Civil Engineering Support.

Trydan is looking for a single leading Contractor for each individual Lot. The successful leading Contractor for each lot will be responsible for delivering the proposed services for

both wind farm projects.

Total value (estimated)

- £3,500,000 excluding VAT
- £4,200,000 including VAT

Above the relevant threshold

Main procurement category

Services

- UKL - Wales

Lot constraints

Description of how multiple lots may be awarded:

Supplier can bid and win all lots. Each lot will be evaluated separately.

Not the same for all lots

Contract dates are shown in Lot sections, because they are not the same for all lots.

Lot 1. Environmental Impact Assessment (EIA) Support and Technical Support.

Description

The appointed Contractor will be responsible for co-ordinating and managing the EIA for both projects. The Contractor will deliver external facing documentation, including (but not limited to) the EIA Scoping Report and Environmental Statement, which will support the planning application for each project. As part of the EIA process, the appointed Contractor will draw on baseline information, stakeholder engagement, and best practice methods to deliver the scope of services identified within each of the work packages. In addition, the appointed Contractor will work closely with Trydan, and the successful Contractor(s) from Lots 2-4, to develop an infrastructure design for each project that balances environmental, planning, technical, engineering, and commercial considerations.

Lot value (estimated)

- £2,000,000 excluding VAT
- £2,400,000 including VAT

Contract dates (estimated)

- 8 September 2025 to 7 September 2028
- Possible extension to 7 September 2029
- 4 years

Description of possible extension:

Lot 1: EIA Support and Technical Support - £500,000.

Same for all lots

CPV classifications and contract locations are shown in the Scope section, because they are the same for all lots.

Lot 2. Terrestrial Ecology and Ornithology

Description

The appointed Contractor will be responsible for co-ordinating ecological and ornithological surveys for both projects. The Contractor will also be responsible for inputting to external facing documentation, including (but not limited to) inputs to the EIA Scoping Report and Environmental Statement, which will support the planning application for each project. As part of the EIA process, the appointed Contractor will draw on baseline information, stakeholder engagement, and best practice methods to deliver the scope of services identified within each of the work packages. In addition, the appointed Contractor will work closely with Trydan to develop a site-wide Net Benefit for Biodiversity strategy for each project.

Lot value (estimated)

- £900,000 excluding VAT
- £1,080,000 including VAT

Contract dates (estimated)

- 8 September 2025 to 7 September 2028
- Possible extension to 7 September 2029

- 4 years

Description of possible extension:

Terrestrial Ecology and Ornithology - £200,000.

Same for all lots

CPV classifications and contract locations are shown in the Scope section, because they are the same for all lots.

Lot 3. Planning Support

Description

The appointed Contractor will be responsible for advising on the planning strategy and deliverables for both projects. The appointed Contractor will act on behalf of Trydan to submit the planning application for both projects to Planning and Environment Decisions Wales, a role which will also include delivering external facing documentation, including (but not limited to) the Planning Statement and Green Infrastructure Statement. The appointed Contractor will play an integral role in co-ordinating and contributing to the determination phase of both planning applications.

Lot value (estimated)

- £300,000 excluding VAT
- £360,000 including VAT

Contract dates (estimated)

- 8 September 2025 to 7 September 2028

- Possible extension to 7 September 2029
- 4 years

Description of possible extension:

Lot 3: Planning Support - £150,000.

Same for all lots

CPV classifications and contract locations are shown in the Scope section, because they are the same for all lots.

Lot 4. Civil Engineering Support

Description

The appointed Contractor will be responsible for providing civil engineering and geotechnical / mining expertise to inform the infrastructure design for each project. In addition, the appointed Contractor will advise and, if required, support the delivery of site investigation works at both projects.

Lot value (estimated)

- £300,000 excluding VAT
- £360,000 including VAT

Contract dates (estimated)

- 8 September 2025 to 7 September 2028

- Possible extension to 7 September 2029
- 4 years

Description of possible extension:

Civil Engineering Support. - £150,000.

Same for all lots

CPV classifications and contract locations are shown in the Scope section, because they are the same for all lots.
