United Kingdom

NUTS code

- UKN - Northern Ireland

Internet address

<https://www.mauriceflynn.com/>

The contractor/concessionaire is an SME

Yes

## **VII.2) Information about modifications**

### **VII.2.1) Description of the modifications**

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

An extension to 30-11-2021, with the further option for EANI, in its absolute discretion, to extend for up to two further periods of 4 months until 31-03-2022 and 2 months until 31-05-2022 at the latest. Value of the extension is 3,150,000 GBP (being 1,500,000 GBP until 30-11-2021; 1,075,000 GBP until 31-03-2022; and 575,000 GBP until 31-05-2022). Further information in VII.2.2 below.

### **VII.2.2) Reasons for modification**

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

The Contract was for 1 year with an option to extend up to a further 3 years. Due to delays in re-procuring, Covid-19 and litigation, the Contract was extended on a number of occasions culminating in VEAT (2020/S 106-258306) until 30-06-2021. EANI have underspent under each VEAT.

Due to being unable to resolve the 9 sets of proceedings in respect of the re-procurement it has become necessary to seek a further unavoidable extension. EANI anticipates awarding the new Contract by 30-11-2021. Optional extensions are to allow for unforeseen

circumstances. Successive modifications were not to circumvent Part 2 of PCR2015, rather they have become necessary due to the relevant circumstances.

The 11month modification value is circa £3,150,000, which does not exceed 50% of the upper range of the original contract value. 50% of the value accounts for contingency due to the unknown volume of emergency work that may be required. Within such contingency also includes sums to permit work in other Lots as required. To secure continuity of service, as the contractor can no longer hold its price due to Covid-19 and/or Brexit, Task Orders issued on/after 01-07-2021 will be adjusted for inflation, calculated with the BCIS Measured Term Contract Updating Percentages. Inflation from mid-point of original contract to 31-03-2021 is: PSA SOR BCE15 5.5pct applies to Sections 1, 2, 4, 5 and 6 of Price List; PSA SOR DEC12 5.0pct applies to Section 7 Item OT070. Inflation after 01.04.21 will be change in BCIS MTC Updating Percentages from 31.03.21 indices, based on TO issue date/latest published index.

The proposed extended term and inflationary price uplift are permitted by Regulation72(1)(c) as the need for additional services from the original contractor is due to the ongoing litigation which could not have been foreseen and/or avoided by a diligent contracting authority and the modification does not alter the overall nature of the contract. In the alternative they are permitted by Regulation72(1)(b) as a change of provider: (i) cannot be made for economic and technical reasons such as requirements of interchangeability or interoperability of services procured under the original procurement given the need to ensure continued access to EANI schools and facilities. Given new contract commencement will be 01-12-2021 or asap thereafter, commencement of a new contractor twice in a short time period, especially in the current climate, would create risk to stability and integrity of services, be unsettling for users and could result in partial/total closure of schools and associated facilities; and (ii) would cause significant inconvenience and duplication of costs for EANI. Any new contractor would have start-up costs in recreating the current service for an unknown time period, which would represent poor VFM, compared to extending the Contract. The inflationary increases are necessary to secure the agreement of the original contract to continue provision of the services given that the contract prices have been fixed for a considerable period. In respect of carrying out work in other Lots, this is permitted under the terms of the Contract and so permissible under Regulation72(1)(a).

### **VII.2.3) Increase in price**

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £23,000,000

Total contract value after the modifications

Value excluding VAT: £26,150,000
