Engagement

Engagement deadline

13 June 2025

Engagement process description

GWR are looking to better understand the market and from responses received to this notice may choose to complete a procurement exercise in the next six months for:

Defibrillation Device - Supply, Install and Maintenance.

Scope

A draft specification is available on request.

The specification outlines the requirements for the supply, installation, maintenance, and ongoing support of Automated External Defibrillators (AEDs) for use on trains and within depot/station facilities across the GWR network. The aim is to ensure the provision of reliable, user-friendly, and effective life-saving equipment to enhance the safety and well-being of passengers and staff.

The scope of the specification includes:

- Supply and installation of 110 AED devices and any necessary accessories,
 - o 93 AED installed on GWRs Hitachi 800 Trains
 - o 17 AED devices to be installed in depots/stations across the GWR network.
- Annual Service / Maintenance Agreement, including remote active monitoring for AED devices, and engineer attendance within 48h for guaranteed uptime,
- Remote monitoring of AEDs through 4G connectivity or better
- Technical support and training for GWR staff
- Compliant with relevant standards, regulations and insurance requirements.

Contract

The estimated budget is: £350,000 Inc VAT

The contract lifetime: 5 years
