All young people will be required to comply with strict terms and conditions and clear house rules that include a requirement to engage with the provision of support and comply with the house rules. It is envisaged that each young person will be allocated a key worker to provide one to one support and be responsible for goal plan setting, outcomes monitoring and developing a resettlement plan. This could range from: managing their own safety, managing their tenancy, managing their finances, training & education and seek support from informal support networks i.e. family, friends, and social interests. It is envisaged that the service provider will also be able to access other support staff to ensure that their needs are met as required. The project is staffed 24 hours a day and 365 days a year, this is inclusive of night staff. Full details of a service specification shall be issued with the call for competition and fully detailed in the tender documents.

The home has 3 levels which will assist the growing demand of young people requiring support and care. The home will allow the Council to accommodate up to 6 people with up to 2 staff living on site. The separate annex will also allow between 1-2 young people who are more independent, which will be seen as more of an independent provision and a step close to reaching their own tenancy.
