National Security Science and Research Programme

Reference number

TTSC3042

#### II.1.2) Main CPV code

• 73000000 - Research and development services and related consultancy services

#### II.1.3) Type of contract

Services

#### II.1.4) Short description

National Security Science and Research (NSSR) leads on science and technology research to inform transport security for the Department for Transport. NSSR is seeking to increase its supplier base to deliver a range of research, analysis, and innovation work for the Department. This procurement is following the Open Procedure to establish a four-year call-off contract to deliver nine requirements and the NSSR Programme (including future requirements), to the estimated value of £12,000,000. NSSR welcomes bids from all organisations within industry and academia who have the capability to deliver a range of work in the following areas: Canine Detection, Counter-Unmanned Aerial Systems, Systems and Analysis, X-Ray screening, Project Management Services and Innovation.

Tenders must be submitted through the DfT's Jaggaer E-Sourcing Portal, which suppliers must register on.

Invitation to Tender documentation can be accessed via the Jaggaer Portal using the following reference:

#### II.1.5) Estimated total value

Value excluding VAT: £12,000,000

#### II.1.6) Information about lots

This contract is divided into lots: No

### II.2) Description

#### II.2.2) Additional CPV code(s)

• 60000000 - Transport services (excl. Waste transport)

#### II.2.3) Place of performance

**NUTS** codes

• UK - United Kingdom

#### II.2.4) Description of the procurement

This procurement is to establish a four-year call-off contract to deliver nine requirements and the NSSR Programme (including future requirements. It is envisioned that the Department will be delivering nine projects in the first year of the contract, with further projects being required throughout the duration of the agreement. Suppliers will be required to deliver a range of work, this will include research, technical analysis, modelling, innovation work, data collection and analysis, project management and conducting trials.

The supplier should have the suitable expertise to deliver the aforementioned requirements in-house or be willing to work with capable sub-contractors or SME's. The supplier will be accountable for the delivery of requirements and performance will be measured against predetermined milestones. The supplier will be required to be in regular contact with the Department to ensure delivery is timely and to the desired quality. Bids will be scored on suitability, quality, and price. Further details of the evaluation criteria can be found in the individual project specifications.

Tenders must be submitted through the DfT's Jaggaer E-Sourcing Portal, which suppliers must register on.

Invitation to Tender documentation can be accessed via the Jaggaer Portal using the following reference:

itt\_502 - National Security Science and Research Programme

#### II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

# II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

1 December 2021

End date

1 December 2025

This contract is subject to renewal

Yes

Description of renewals

Ongoing requirements and potential extension

#### II.2.10) Information about variants

Variants will be accepted: No

#### II.2.11) Information about options

Options: No

#### II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

#### II.2.14) Additional information
