I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Provision of data services

Reference number

UOE/2023/015/MB

II.1.2) Main CPV code

- 72300000 - Data services

II.1.3) Type of contract

Services

II.1.4) Short description

A team at the University of Exeter is part of the “BlueAdapt” research project investigating the transmission dynamics of coastal pathogens and how these will shift in the response to climate change. As part of this project, the University will perform a case study to evaluate and enhance a smartphone app that issues real-time water quality alerts to users, in order to assess changes in users’ beach visitation behaviours. Such changes in behaviour may alter human exposure to waterborne microorganisms and subsequent illness.

As such, the University intends to award a contract to Surfers Against Sewage for the provision of data and analytical reports based on app usage, in order to achieve the research objectives of the project. Their Safer Seas and River Science (SSRS) app is the only app identified that can offer the required criteria.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £96,000

II.2) Description

II.2.2) Additional CPV code(s)

- 72300000 - Data services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

A team at the University of Exeter is part of the “BlueAdapt” research project investigating the transmission dynamics of coastal pathogens and how these will shift in the response to climate change. As part of this project, the University will perform a case study to evaluate and enhance a smartphone app that issues real-time water quality alerts to users, in order to assess changes in users’ beach visitation behaviours. Such changes in behaviour may alter human exposure to waterborne microorganisms and subsequent illness.

As such, the University intends to award a contract to Surfers Against Sewage for the

provision of data and analytical reports based on app usage, in order to achieve the research objectives of the project. Their Safer Seas and River Science (SSRS) app is the only app identified that can offer the required criteria, including:

- A near real-time water quality alert service across England, Wales, Scotland and Northern Ireland (approximately 450 locations).
- A large user base, with over 200,000 unique app downloads to achieve the sample size required for the research.
- Enables app-users to voluntarily submit a health report associated with their visit to a location to support research objectives (e.g. the range of infection indicators considered).
- Nation-wide coverage of both sewage pollution alerts from water companies and Pollution Risk Forecast alerts from the regulators (Environment Agency, Natural Resources Wales, Scottish Environment Protection Agency).

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: Yes

Identification of the project

This project is part of the European Union's Horizon Europe research and innovation programme under grant agreement No 101057764 and, as an associated partner, the University of Exeter has received the funding for its activities in this project from the UKRI/HM Government.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

A team at the University of Exeter is part of the “BlueAdapt” research project investigating the transmission dynamics of coastal pathogens and how these will shift in the response to climate change. As part of this project, the University will perform a case study to evaluate and enhance a smartphone app that issues real-time water quality alerts to users, in order to assess changes in users’ beach visitation behaviours. Such changes in behaviour may alter human exposure to waterborne microorganisms and subsequent illness.

As such, the University intends to award a contract to Surfers Against Sewage for the provision of data and analytical reports based on app usage, in order to achieve the research objectives of the project. Their Safer Seas and River Science (SSRS) app is the only app identified that can offer the required criteria, including:

- A near real-time water quality alert service across England, Wales, Scotland and Northern Ireland (approximately 450 locations).
- A large user base, with over 200,000 unique app downloads to achieve the sample size required for the research.
- Enables app-users to voluntarily submit a health report associated with their visit to a location to support research objectives (e.g. the range of infection indicators considered).
- Nation-wide coverage of both sewage pollution alerts from water companies and Pollution Risk Forecast alerts from the regulators (Environment Agency, Natural Resources Wales, Scottish Environment Protection Agency).

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

19 July 2023

V.2.2) Information about tenders

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor/concessionaire

Surfer's Against Sewage

Wheal Kitty Workshops

St Agnes

TR5 0RD

Country

United Kingdom

NUTS code

- UKK - South West (England)

The contractor/concessionaire is an SME

Yes

V.2.4) Information on value of contract/lot/concession (excluding VAT)

Total value of the contract/lot/concession: £96,000

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body
