Body governed by public law

I.5) Main activity

Other activity

Facilitation of Public Transport

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Diffusion Tube Air Quality Monitoring - ITT

Reference number

DN508456

II.1.2) Main CPV code

- 51200000 - Installation services of equipment for measuring, checking, testing and navigating

II.1.3) Type of contract

Services

II.1.4) Short description

Supplier procured for the planning, site set up and installation of Diffusion Tubes across Greater Manchester. The supplier will also be responsible for the end to end process of the Air Quality Monitoring service involving the monitoring, reporting and project management.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Lowest offer: £30,000 / Highest offer: £50,000 taken into consideration

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Government has instructed many local authorities across the UK to take quick action to reduce harmful Nitrogen Dioxide ("NO₂") levels following the Secretary of State issuing a direction under the Environment Act 1995 to undertake feasibility studies to identify measures for reducing NO₂ concentrations to within legal limit values in the 'shortest possible time'.

In Greater Manchester, the 10 local authorities, the Greater Manchester Combined Authority ("GMCA") and Transport for Greater Manchester ("TfGM") are working together to develop a Clean Air Plan to tackle NO₂ Exceedances at the Roadside.

Air Quality monitoring is critical in evidencing that the Greater Manchester Clean Air Plan is delivering the necessary trajectory of air quality improvement and compliance to air quality limit values. The NO₂ diffusion tube monitoring campaign forms part of the Greater Manchester Clean Air Plan monitoring and evaluation project.

TfGM procured an 8 year Services Agreement with a Supplier for the planning, site set up and installation of diffusion tubes across Greater Manchester. The supplier will also be responsible for the end to end process of the Air Quality Monitoring service involving the monitoring, reporting and project management.

II.2.5) Award criteria

Quality criterion - Name: Technical / Weighting: 40%

Quality criterion - Name: Commercial / Weighting: 40%

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description
