In Service Support for Combat System Highway

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- No tenders or no suitable tenders/requests to participate in response to negotiated procedure with prior publication of a contract notice
- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The Ministry of Defence ('the Authority'), intends to place a 5 year contract with SEA Limited ('SEA') for Combat System Highways In Service Support. The estimated value of this contract is £3.8m. It is considered that this Contract can be placed using the Negotiated Procedure without Prior Publication of a Contract Notice pursuant to Regulation 16(1)(a)(ii) of the UK Defence and Security Public Contracts Regulations 2011 for Technical Reasons. SEA is the Design Organisation (DO) for the Combat Systems Highway (CSH), a legacy safety critical system and has provided support to the CSH since 1984. As such, SEA is the only entity with the requisite in-depth technical knowledge, expertise and specific know-how as well as the tools, test equipment and means necessary to fulfil this requirement. It is considered that to utilise another contractor which does not have access to these resources could present significant safety risks for the Ministry of Defence. Without access to the proprietary documentation, technical drawings, tooling and test equipment, specific manufacturing processes and knowledge and expertise, any goods provided by another entity would require new testing, new verification and validation to ensure that the Safety and Suitability for Service of the system, operational performance and effectiveness, and the interoperability is not compromised and that the Safety Case for the system is not invalidated. This would all be at a disproportionate cost and time to the Authority.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

Contract No

703990450

Title

Combat System Highway
