Scope

Description

Longford and Bell Court are two residential blocks (Medium and High Rise building, one block comprises of 16 floors, the other 8 floors).

Summary of Works to be carried out at Longford Court consist of the following:

- Replace roof covering and associated balustrades, upstands and gulley's.
- Replace all external windows and balcony doors
- Replace all bathrooms and associated services and decorations to Barnet Homes Ltd specifications
- Replace all Kitchens and associated services and decorations to Barnet Homes Ltd specifications
- Review and replacement of ventilation systems within flats to ensure appropriate environmental conditions as applicable.
- Redecoration of all communal spaces ensuring appropriate fire rated coverings are

employed.

- Survey and report for structural condition of the existing balconies.
- Structural specification of remedial works to balconies, as appropriate and informed by the survey and report.
- External façade remedials where appropriate.
- New Flow and Return Heating Main risers through the building to future proof the installation for a central plant option due to existing gas installations within the flats of the building.
- Replace above ground drainage systems
- Replace rising and down service water mains including main plant and tanks.
- New flat ventilation systems to improve air quality and heat recovery
- New air quality sensors within the flats

Summary of works to be carried out Bell Court:

- Structural repair to flat and communal balconies and handrails including re-covering for drainage run off
- Replacement of weatherproof coverings to balconies
- Replacement of balustrades, handrails etc to communal and flat balconies
- Structural repair to communal staircase construction, handrails etc
- Redecoration of handrails and common areas in staircases
- Structural repair, if required, to the canopy street side above the shops including repair/replacement of coverings and drainage
- Survey and possible repair/replacement of above ground drainage
- Condition survey required to all water services mains pipework
- Removal of all debris and plants growing through the structure, remediate where required.

- Complete the works around the 'repaired' gas meter boxes for all flats.
- Allow a provision in the tender for compliance works where the staircase exit doors are adjacent to retail unit doors and windows.
- Review of fire compartmentation to external access hatches with non-compliant fire stopping around gas pipes.
- Allow for intumescent grills where these exit low level on 'one way' fire escapes
- Allow for temporary support of M&E services should structural works be required to underside of the balconies.
- Fire stopping within flats
- Replacement of flat entrance doors where required
- Replacement of staircase doors, glazed units and hatches
