II.1.4) Short description

Locala deliver NHS services across West Yorkshire, specifically Kirklees, Bradford, and Calderdale. We deliver services from over 50 locations, and the majority of our clinical colleagues are mobile workers who visit patients at home. Secure access to our clinical record system TPP SystmOne, is vital, wherever our colleagues happen to be geographically. We often need to work from locations owned by other organisations and therefore rely heavily on tethering. 4G/5G capable smartphones are required to provide access to the information colleagues require when visiting patients or working from non-Locala networked sites. Locala have made great progress in utilising digital platforms and applications over the last few years, now we require a contract for provision of mobile phones to enable our clinicians to deliver great care to our patients.
