Country

United Kingdom

Region code

UKL21 - Monmouthshire and Newport

Companies House

05046791

Internet address(es)

Main address

www.wwutilities.co.uk

I.6) Main activity

Production, transport and distribution of gas and heat

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Multi-vector waste stream analysis for electrolytic fuel production hubs

II.1.2) Main CPV code

- 73210000 - Research consultancy services

II.1.3) Type of contract

Services

II.1.4) Short description

The Alpha phase of the Integrated Hydrogen Transport Hubs project will build on the work undertaken within the Discovery phase by continuing to develop the bespoke site selection

criteria with a view on physical deliverability. This detailed analysis will further enable the down-selection of a preferred site or sites to progress into detailed design. An engineering

proposal will then be refined through engagement with statutory undertakers and permitting authorities to understand site specific constraints and risks. OEM's will be consulted to further refine CAPEX and OPEX costs associated with delivery, and propose the commercial

and regulatory operating model in preparation for a legally binding agreement. The Beta phase delivery programme will then be designed in line with proposed delivery partners and the project supply chain, based on the findings of the work completed in Alpha.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKK - South West (England)
- UKL - Wales

II.2.4) Description of the procurement

WWU REQUIRES a detailed analysis of a bespoke site selection for an Integrated Hydrogen Transport Hub. Including engagement with statutory undertakers and permitting authorities to understand site specific constraints and risks. CAPEX & OPEX costs will also be detailed. WWU SORT TO PROCURE A SOLUTION THAT, TO THE FULLEST EXTENT PRACTICABLE FULFILLED THIS REQUIREMENT

II.2.11) Information about options

Options: No
