This notice has been edited. The [previous version](#) is still available.

Wording added to Engagement section of the notice to confirm the submission deadline of the Preliminary Market Engagement response of 12noon Friday 6th June 2025.

Scope

Reference

KMCSP-027

Description

Kirklees Council is looking into a potential procurement option to put in place future contractual arrangements for suitably qualified and experienced organisations to deliver the Huddersfield District Energy Network (HDEN).

Kirklees Council declared a Climate Emergency in 2019. This recognised the challenges of a changing climate facing the area. In response, the Council has adopted an overarching target for achieving 'net-zero' carbon emissions for the district by 2038 and intends to develop the HDEN. The network will help to significantly reduce the carbon emissions associated with the district's largest town in line with local, regional and national targets and contribute to achieving the Council's own strategic goals. An agreement with the Green Heat Network Fund is in place following a successful application for commercialisation and construction funding.

Whilst the precise scope is still being developed by the Council as part of the current commercialisation phase, further information around the key deliverables for this requirement are identified in the Preliminary Market Engagement document. This can be accessed via the Council's tendering portal - <https://yortender.eu-supply.com/>

To provide a response to this Preliminary Market Engagement, an organisation must sign up to the YORTender portal (this can be done free of charge) to access the Preliminary Market Engagement document. Responses must be submitted via the YORTender portal.
