II.1.4) Short description

Cardiff Council are proposing to undertake a procurement exercise for the provision of on street cycle hangars with parking spaces to be rented to members of the public. Cardiff Council has secured capital funds to purchase the cycle hangars but are looking to run a concession contract for the provider to deliver the service. The Council does not have revenue funding available for the ongoing maintenance of the units. It is anticipated that the supplier should cover the costs of routine and reactive maintenance from the rental fees charged for the units, in addition to covering the ongoing rental management costs.

The supplier will be expected to undertake a programme of routine maintenance to keep the cycle hangars in good working order, and to also undertake repairs and reactive maintenance when required (e.g. due to accidental damage or vandalism).

II.1.5) Estimated total value
