Brief Description of Requirement

UKSA is seeking a delivery partner to design and deliver a UK wide educational tour in support of the first satellite launch from the UK, later this year. The tour will feature a life size replica of Virgin's LauncherOne rocket (the same rocket that will launch from Cornwall later this year). Following launch, our ambition is for the replica rocket to embark on a high-profile UK-wide tour visiting a minimum of 12 cities to inspire and engage young people about launch from across the UK about the career opportunities available to them within the UK's burgeoning space sector. The locations selected for the UK-wide tour will need to reflect these objectives and demonstrate appropriate reach and impact across these target audiences. The replica rocket tour will feature interactive elements to maximise the educational value and ensure a rich learning experience for young people viewing the replica. The supplier will be required to deliver:

- Location sourcing and tour management
- Logistics and delivery of tour
- Creation and delivery of supporting educational digital content

- Audience engagement and education outreach programme
- Evaluation

An option for storage after tour completion is also included within the requirement.

Please ensure you review all attached information to ensure a full understanding of this requirement. All attachments can be found with the Supplier Attachments tab within the Jaggaer eSourcing Portal.

This contract will be awarded based on the evaluation criteria as set out in the RFP document.
