For the period 1st October 2021 to 30th November 2044

II.2.11) Information about options

Options: No

II.2.14) Additional information

The contract represents 16,000 tonnes per annum (10%) of the annual tonnage which goes through transfer stations in Suffolk. The Council is undertaking a procurement exercise using the above threshold restricted procedure for operation of our transfer stations for the 147,000 tonnes per annum (90%) with the contract to commence May 2022

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

In accordance with Regulation 32(2)(b)(ii) competition is absent for technical reasons where no reasonable alternative exists. A search on the Environment Agency's website has shown that there are no alternative licensed sites within a reasonable distance of Haverhill. Furthermore, due to the low tonnage involved, it would not be efficient to build and operate a new transfer station in isolation in this area and nor could a different operator provide a cost- effective service.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
