I.3) Communication

Access to the procurement documents is restricted. Further information can be obtained at

www.cadentgas.com

Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted electronically via

www.cadentgas.com

I.6) Main activity

Production, transport and distribution of gas and heat

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Compressor Maintenance Service Contract

II.1.2) Main CPV code

- 50531300 - Repair and maintenance services of compressors

II.1.3) Type of contract

Services

II.1.4) Short description

Cadent is the Titleholder and Operator of a Reciprocating Compressor on an un-manned site in North Lincolnshire. The Reciprocating Compressor Package was installed in 2022/23 and is due to be commissioned in Autumn 2023. The Compressor is a first of its kind in Cadent and UK Gas Distribution. Cadent do not own or operate any other compressors or rotating equipment.

Cadent does not have a dedicated maintenance team for compressors. Therefore, Cadent would like to outsource all compressor package maintenance through a maintenance contract. The maintenance contract will be a multi-year contract lasting 2 Years with an option to extend 1 + 1 + 1

Cadent have developed maintenance procedures and associated frequencies which the contractor will have to work to.

In addition to the maintenance contract, the Supplier will need to provide a call out service in the event of break down.

The Compressor Package operates at 7 barg on the inlet, boosting the natural gas pressure to 37.2 barg on the outlet. It is expected the compressor will run 4000 hours annual, mainly in the summer months.

The compressor package is a self-contained unit which includes the following systems:

- Process Gas System

- Cooling System (Water/Glycol)
- Lube Oil System
- Vent Gas Compressor System
- Instrument Air System
- Nitrogen System
- HVAC System
- Control and Safety System (SCADA, HMI, PLC, ESD, F&G)
- Power Distribution.

The Supplier will be responsible for maintenance of all systems and all disciplines.

The package was designed to a project specification which was mainly aligned to API 618 5th Edition. To give an idea of scale, the compressor max flow rate is 5000scmh. The inlet pipework is 6" diameter and the outlet is 4" diameter. The compressor and associated systems fit in one building sized 13m x 5m. The compressor is from ABC compressors, but the package was designed and built by an independent packager.

The tender event will be for the maintenance contract for the full compressor package. Breakdown and call outs will be included in the maintenance contract.

The Supplier will be responsible for the maintenance of all systems and disciplines within the package. Therefore, it is expected the Supplier will have suitably trained discipline engineers for example, COMPEX electricians and mechanical engineers etc or have subcontractors available.

All maintenance will be supervised by Cadent Supervisors. It is expected that intrusive maintenance activities will be completed in one or two windows a year when the compressor can be shut down, isolated, and vented down.

Tender documents will be available to view via request. please contact Abby.Warrender@Cadentgas.com

II.1.5) Estimated total value

Value excluding VAT: £300,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.5) Award criteria

Price

II.2.6) Estimated value

Value excluding VAT: £300,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

24

This contract is subject to renewal

Yes

Description of renewals

2 year contract 1 + 1 + 1

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

23 August 2023

Local time

3:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.3) Additional information

Suppliers will be required to sign up to Ariba for invoicing and will need to submit all invoices electronically.

VI.4) Procedures for review

VI.4.1) Review body

Cadent Gas Limited

Coventry

Country

United Kingdom
