I-25309 0699

Description

WSCC is looking to identify a suitably qualified delivery partner to procure and manage the supply of high quality and competitively priced solar PV and battery storage systems and, potentially, other associated technologies and measures. The chosen delivery partner will market and procure the supply of systems at scale directly to residents and small to medium sized enterprises (SMEs) across Sussex.

For the purpose of this Procurement, the term Services is used to describe the full range of Services required.

In summary:

WSCC proposes to appoint a delivery partner (the Delivery Partner) to assist in the delivery of the Scheme. The Delivery Partner will appoint one or more suppliers to deliver solar equipment systems to the residents of the areas of the collaborating authorities.

The Delivery Partner shall run competitions or "auctions" (approx. one per year) for the appointment of a supplier/s to deliver solar equipment systems to residents. Although we aim to run successive, annual competitions, after the first phase of the Scheme, WSCC shall be under no obligation to require the Delivery Partner to carry out further competitions and the Delivery Partner Contract would effectively come to an end if WSCC did not wish to proceed.

Total value (estimated)

- £5,802,525 excluding VAT
- £6,963,030 including VAT

Above the relevant threshold

Contract dates (estimated)

- 4 August 2025 to 3 August 2030

- Possible extension to 3 August 2032
- 7 years

Main procurement category

Services

CPV classifications

- 09330000 - Solar energy
- 65400000 - Other sources of energy supplies and distribution

Contract locations

- UKJ - South East (England)

Engagement

Engagement deadline

26 January 2024

The engagement was carried out before this notice was published.

Engagement process description

A Request for Information process was carried out under The Concessions Regulations 2016 in January 2024. This RFI consisted of 18 questions to suppliers published via Contracts Finder. This is a link to the RFI
