Water

Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

PRO004419-Services-Framework-EV Charging Infrastructure (1)

Reference number

PRO004419

II.1.2) Main CPV code

- 45314300 - Installation of cable infrastructure

II.1.3) Type of contract

Works

II.1.4) Short description

United Utilities have a requirement for the design, procurement, installation and commissioning activities associated with Electric Vehicle Charging Points (EVCPs) of any types.

The EVCPs will be installed at a list of prioritised locations. Each location is to be regarded as a different sub-Project within the overall EVCPs Project and shall be identified as agreed with UU.

Each location's sub-project consists of a site survey assessment, business case development, design, procurement, installation, testing, commissioning, certification & warranty of EVCP and associated infrastructure as described and specified hereafter.

Reasons for undertaking this project;

-On-site charging facilities to support the deployment of Battery Electric Vehicles (BEV's) for the UU fleet

-On-site charging facilities for employee privately owned BEV's and capability to differentiate between charging for personal and UU fleet use

-Charge points at employees home addresses for UU vehicles

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 09000000 - Petroleum products, fuel, electricity and other sources of energy
- 31158000 - Chargers
- 31158100 - Battery chargers
- 34144900 - Electric vehicles

- 50000000 - Repair and maintenance services
- 51110000 - Installation services of electrical equipment

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

North West England

II.2.4) Description of the procurement

The scope of this agreement will be:

United Utilities have a requirement for the design, procurement, installation and commissioning activities associated with Electric Vehicle Charging Points (EVCPs) of any types, and shall be read in conjunction with the supported documents enclosed within the tender documents.

The EVCPs will be installed at a list of prioritised locations. Each location is to be regarded as a different sub-Project within the overall EVCPs Project and shall be identified as agreed with United Utilities.

Each location's sub-project consists of a site survey assessment, business case development, design, procurement, installation, testing, commissioning, certification & warranty of Electric Vehicle Charging Points and associated infrastructure as described and specified hereafter.

Reasons for undertaking this project;

- To provide on-site charging facilities to support the deployment of Battery Electric Vehicles (BEV's) for the United Utilities (UU) fleet
- To provide on-site charging facilities for employee privately owned BEV's and capability to differentiate between charging for personal and UU fleet use
- To provide charge points at employees home addresses for UU vehicles

II.3) Estimated date of publication of contract notice

1 October 2021

Section IV. Procedure
