Contract

DoJ FSNI Purchase of Helium BIPS for Instrumental Analysis

DoJ Forensic Science Northern Ireland

F03: Contract award notice

Notice identifier: 2021/S 000-022784

Procurement identifier (OCID): ocds-h6vhtk-02dbab

Published 14 September 2021, 11:40am

Section I: Contracting authority

I.1) Name and addresses

DoJ Forensic Science Northern Ireland

c/o Construction & Procurement Delivery, Clare House, 303 Airport Road West

Belfast

BT3 9ED

Email

justice.cpd@finance-ni.gov.uk

Country

United Kingdom

NUTS code

UKN0F - Mid and East Antrim

Internet address(es)

Main address

<https://www.justice-ni.gov.uk/topics/forensic-science/forensic-science-northern-ireland>

Buyer's address

<https://www.finance-ni.gov.uk/topics/procurement>

I.2) Information about joint procurement

The contract is awarded by a central purchasing body

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

DoJ FSNI Purchase of Helium BIPS for Instrumental Analysis

Reference number

DOJDAC 18/21

II.1.2) Main CPV code

- 44612100 - Gas cylinders
 - LA21 - For laboratory use

II.1.3) Type of contract

Supplies

II.1.4) Short description

FSNI are establishing a Direct Award Contract for the supply of cylinders of helium gas with a Built In Purification System (BIPS).

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £170,000

II.2) Description

II.2.2) Additional CPV code(s)

- 24111300 - Helium

II.2.3) Place of performance

NUTS codes

- UKN0F - Mid and East Antrim

Main site or place of performance

Forensic Science Northern Ireland, Seapark, Carrickfergus, County Antrim

II.2.4) Description of the procurement

FSNI are establishing a Direct Award Contract for the supply of cylinders of helium gas with a Built In Purification System (BIPS).

The instrumentation set up in a number of labs across FSNI demands high purity helium in order to avoid unnecessary maintenance, repair and down time. The instrumentation in

question is highly sensitive and can be easily damaged by small impurities being allowed to enter these systems, potentially resulting in loss of results, days of down time for additional

maintenance and in some cases expensive repair costs and engineer visits. The instrumentation which requires this high purity helium is used across FSNI and is used in case work. It is imperative that the purity of the gas does not compromise case work results. The issue of constant purity can be eliminated using cylinders that incorporate a Built In Purification System (BIPS Cylinders).

The complex analytical instrumentation used across FSNI has a direct impact on casework turnaround times, target dates and SLAs with FSNI's customers. The availability of this

instrumentation is business critical for priority 1 or urgent casework and unnecessary down time could not be tolerated by the organisation.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

FSNI first tested the market for Helium with BIPS in 2013 when they tendered for the Supply & Delivery of Gases, this product had to be removed from the tender specification as only one supplier was permitted to supply Helium BIPS. Horizon scanning has continued since then to understand whether there may be an alternative in provision that could provide the same level of purity required and recent market sounding has confirmed that there remains no alternative to the patented product offered by the designated supplier. BIPS cylinders are exclusive to the designated supplier, who developed and own the Built In Purification System. They have this system patented, therefore no other supplier can offer the same or similar products.

All public procurements should comply with NI Public Procurement Policy (NIPPP) and Managing Public Money NI.

The value of this Direct Award Contract (DAC) is above the relevant threshold and therefore the Public Contracts Regulations 2015 (as amended) apply. There are derogations

under the regulations to award a contract to a single supplier where the supplies or services can only be supplied by a particular supplier for any of the following reasons:-

Where competition is absent for technical reasons (regulation 32(2)(b)(ii); or

i) For reasons connected with the protection of exclusive rights, including intellectual property rights (regulation 32(2)(b)(iii))

but only where no reasonable alternative or substitute exists and the absence of competition is not the result of an artificial narrowing down of the parameters of the procurement.

In this case as the BIPS system is patented and is further essential to provide the critical

quality and purity of gases required for FSNI instrumentation.

In applying the regulation 32 derogation, CPD, on behalf of FSNI, published a voluntary transparency notice in the Find a Tender Service (FTS) Official Journal (the UK's

EU Journal equivalent). This notice was published at least 10 days before the intended contract award date. FSNI did not enter into or sign any contract document ahead of the issue of the agreed CPD award letter.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2021/S 000-021564](#)

Section V. Award of contract

Contract No

DOJDAC 18/21

Title

DoJ FSNI Purchase of Helium BIPS for Instrumental Analysis

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

14 September 2021

V.2.2) Information about tenders

Number of tenders received: 1

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor

As per Regulation 50(6)(a) - information withheld for security reasons

As per Regulation 50(6)(a) - information withheld for security reasons

Country

United Kingdom

NUTS code

- UK - United Kingdom

The contractor is an SME

Yes

V.2.4) Information on value of contract/lot (excluding VAT)

Initial estimated total value of the contract/lot: £170,000

Total value of the contract/lot: £170,000

Section VI. Complementary information

VI.3) Additional information

Please note that information relating to contractors engaged by the Northern Ireland Department of Justice, and associated bodies, is not published in any publicly accessible forum or publication. This is to protect such contractors, whose security and safety could be threatened by dissident terrorist organisations still active in Northern Ireland if their details

became known. This is consistent with Regulation 50(6)(a).

The estimated contract value is a broad estimate only and includes additional quantum for unforeseen demand and to future proof. There is no guarantee of any level of business under this contract. The estimate is not deemed to be a condition of contract nor a guarantee of minimum demand or uptake. No compensation will be payable to a contractor should the

actual demand be less than that stated.

The successful contractor's performance on this contract will be managed as per specification and regularly monitored (see Procurement Guidance Note 01/12 Contract

Management: <https://www.finance-ni.Gov.uk/sites/default/files/publications/dfp/PGN-01012-Contract-Management-Principles-Procedures-25-Sept-2017.PDF>). Contractors not delivering on contract requirements is a serious matter. It means the public Purse is not getting what it is paying for. If a contractor

fails to reach satisfactory levels of contract performance they will be given a specified time to improve. If, after the specified time, they still fail to reach satisfactory levels of contract

performance, the matter will be escalated to senior management in Construction and Procurement Delivery for further action. If this occurs and their performance still does not improve to satisfactory levels within the specified period, it may be regarded as an act of grave professional misconduct and they may be issued with a notice of written warning and notice of unsatisfactory performance and this contract may be terminated. The issue of a notice of written warning and notice of unsatisfactory performance will result in the Contractor being excluded from all procurement competitions being undertaken by Centres of Procurement Expertise on behalf of bodies covered by the Northern Ireland Procurement Policy for a period of up to 3 years from the date of issue of the notice.

VI.4) Procedures for review

VI.4.1) Review body

See VI.4.3 / Review procedure

See VI.4.3 / Review procedure

Country

United Kingdom

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

The UK does not have any special review body with responsibility for appeal/mediation procedures in public procurement competitions. Instead, any challenges are dealt with by the High Court, Commercial Division, to which proceedings may be issued regarding alleged breaches of the Public Contracts Regulations 2015.
