II.1.4) Short description

There is a requirement to replace the existing Defence Legislation Support Tool with a new

tool with broader capabilities. DLST V2 will provide a service across Defence enabling users to identify and understand relevant legislative health, safety and environmental protection requirements applicable to their domain and providing a suitable tool for demonstrating and managing compliance against those standards. This will be a key tool in managing Defence activities safely and environmentally soundly and will address significant shortfalls with the current tool.

The purpose of this PIN is to establish whether there are any suppliers capable and willing to supply this service to the Authority.

A Tender for a 4-year contract with the option to extend for one + one additional year and to commit funds to develop and implement the DLST V2, via any means of design, build and/or provision, to reach initial operating capability by 1 Jul 25 and full operating capability by 1 Nov 25.

This requirement will be managed in accordance with all Departmental commercial requirements, conducting a Restricted procedure competition including DPQQ and the Contract Notice and an Invitation to Tender (ITT) process in the acquisition and implementation stage of the new service.
