## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The Order 2023 (the Order) came into force on 8th March 2023. The reform that flows from the Order removed the need for the ORE to be provided by a dental authority. The changes could significantly amend the scope of the services and open up the market to new suppliers who were previously prohibited from bidding. Before the GDC can take advantage of the new flexibility, the GDC needed to develop and consult on a new set of rules. The final rules were published in Spring 2024. The extension includes an additional sum payable to the consortium to account for the management and delivery of up to 7 diets across 20 months and 3 days. The additional services had become necessary to continue to allow overseas registrations to continue until the implementation of the rules pursuant to the new Order to allow for a procurement for the services under the updated rules. A change of contractor cannot be made for economic or technical reasons. There is significant preparatory work required to set up the services. This is one of only two types of this exam currently offered in the UK for Overseas dentists. It requires specific technical expertise to run the exam that has to date not presented itself in the market. A change of contractor would cause significant impact and substantial duplication of costs to the GDC. The GDC has a statutory obligation to run the ORE and was required to pause the exam due to Covid 19 restrictions, this has caused a significant backlog of candidates. Candidates only have one five-year period to complete the ORE, they cannot re-apply. Therefore, they would not be able to practice in the UK and overtime may reduce to number of dental professional available to practice in the UK.
