Description

East Sussex County Council (ESCC) as Waste Disposal Authority (WDA) must ensure that its old landfill sites do not pose a threat to the environment as a result of its previous use. Landfill gas and leachate are of primary concern. Currently the WDA arranges for the disposal of between 28,000 and 45,000 metre cubed of leachate each year from 5 former landfill sites around the county - these numbers may be revised for the upcoming procurement. The current contract expires on 20th August 2026. The length of the new contract is still to be determined.

Contract dates (estimated)

- 21 August 2026 to 20 August 2029

- 3 years
