II.1.4) Short description

United Utilities Water Limited (UUW) operates a fleet of biogas fuelled Combined Heat & Power (CHP) engines which are located at their sludge digestion sites.

Developing our future strategy we are undertaking pre-market research to understand market offerings for the following services.

- 1) Design and build (DB) of CHP installations
- 2) Design, build and finance (DBF) installations, with O&M by UUW
- 3) Design, build, finance, operate and maintain (DBFOM)

For option 3 we are interested in understanding how this model can be delivered, e.g. would this be through the sale of the biogas from UUW to the provider, and/or sale of electricity and heat back to UUW.

Responses detailing variations of the above services are welcome.

II.1.6) Information about lots

This contract is divided into lots: No
