Port-related activities

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Procurement of a Dust Control System for Tees Dock Warehouse A

Reference number

2021-043

II.1.2) Main CPV code

- 39714110 - Extraction ventilators

II.1.3) Type of contract

Supplies

II.1.4) Short description

The requirement is to design, manufacture, deliver, install, test and complete a dust dilution ventilation system for bays 1, 2 and 3 of Tees Dock Warehouse A. The dust dilution ventilation system shall consist of 3 separate systems (one for each bay). Each bay being 33m wide x 90m long x 14m apex (38,000m³). The dust dilution ventilation system shall be suitably designed, manufactured, installed, tested and completed so that when in operation it reduces the levels of inhalable and respirable Agribulk dust to within acceptable levels in full compliance with the requirements of the Control of Substances Hazardous to Health (COSHH) Regulations 2002.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description**II.2.3) Place of performance**

NUTS codes

- UKC12 - South Teesside

Main site or place of performance

The contracting entity's premises at Teesport.

II.2.4) Description of the procurement

The requirement is to design, manufacture, deliver, install, test and complete a dust control system for bays 1, 2 and 3 of Tees Dock Warehouse A. The dust control system shall consist of 3 separate systems (one for each bay). Each bay being 33m wide x 90m long x 14m apex (38,000m³). The dust control system shall be suitably designed, manufactured, installed, tested and completed so that when in operation it reduces the levels of inhalable and respirable Agribulk dust to within acceptable levels in full compliance with the requirements of the Control of Substances Hazardous to Health (COSHH) Regulations 2002. The dust control system shall be suitably designed, manufactured, installed, tested and completed so that it reduces the levels of airborne

Agribulk dust particles within each bay to a level which eliminates the risk of fire and/or explosion. The dust control system shall be suitably designed, manufactured, installed, tested and completed so that it is full compliance with the relevant ATEX directives and the Dangerous Substances and Explosive Atmospheres (DSEAR) Regulations 2002.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents
