II.1.4) Short description

Efficiency East Midlands (EEM Ltd) is a procurement consortium which establishes and manages a range of Frameworks and DPS agreements. Our members include organisations providing services to the whole public sector including Housing Associations, Local Authorities, NHS Trusts, Education Providers and Emergency Services. For more information on EEM and our offering please visit: <https://eem.org.uk/>

EEM is conducting this tender exercise to establish a dynamic purchasing system (DPS) consisting of contractors who can undertake wide scope of property maintenance works including internal, external, and whole house improvement and maintenance works. The DPS is being set up to complement our existing Property Improvement Works Framework (EEM0056). Our existing framework covers improvement works contracts with a contract value of £150,000 and over.

The DPS will support members looking to source suitable contractors to carry out property improvement and maintenance works including internal, external, and whole house improvement and maintenance works to a single or multiple occupied and void properties up to a maximum contract value of £150,000.

The DPS initial application period will run until 31st August 2021 and EEM will then review all applications received during the initial application period from 01st September 2021. Organisations appointed on to the DPS will receive a DPS Agreement to sign and return. The DPS will commence on 27th September 2021 for 5 years ending on 26th September 2026 and applicants can submit an application to join the DPS at any point during the DPS term.
