-

Other information

Description of risks to contract performance

Funding - because we may not receive funding for year 2 of the project, there is a risk the project won't be completed. Timescale – because there has been a delay in starting the project, there is a risk that the initial scoping exercise is delayed which could impact on delivery. Resourcing – because the budget on the project is fixed, there is a risk that the project will overspend if not managed rigorously.

Conflicts assessment prepared/revised

Yes
