There was one declared conflict of interest where a member of the panel worked for a provider within the market over 10 years ago. This was assessed by the procurement process panel and deemed not to represent a legitimate conflict of interest as the provider did not bid, therefore the potential conflict was not upheld and the member could continue. The Key Criteria were weighted as follows;

- Integration, Collaboration & Service Sustainability 20.00%
- Improving access, reducing health inequalities and facilitating Choice 45.00%
- Quality and Innovation 25.00%
- Social Value 10.00%
- Value Pass/Fail

The weightings for the 5 key criteria were determined by the procurement panel to give appropriate relative importance to each of the sections equally in line with the commissioning expectations for the service. These were assessed and scored on a 0-5 basis as per the evaluation criteria set out within the procurement documentation.
