## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Low Emissions Rolling Stock (New or Converted) for Chiltern Railways

Reference number

ENG2092

#### **II.1.2) Main CPV code**

- 34620000 - Rolling stock

#### **II.1.3) Type of contract**

Supplies

#### **II.1.4) Short description**

The Chiltern Railway Company Limited (Chiltern), further to notices 000-026866 and 000-026867, is now also seeking proposals from established rolling stock manufacturers, owners and modifiers for the supply of between 20 and 70 new or converted low emission rolling stock multiple units, and associated maintenance, infrastructure and depot upgrade services.

This rolling stock must achieve a meaningful reduction in the exhaust emissions and exterior noise levels compared to Chiltern's existing diesel multiple units, particularly in urban areas.

For the avoidance of doubt, notices 000-026866 and 000-026867 for battery electric multiple units remain live and active; and are independent and separate procurements to this notice. The subject of this procurement notice does not include full battery electric multiple units. Chiltern is now seeking offers for other low emissions solutions as a possible alternative or in addition to full battery electric multiple units.

This notice does not relate to the financing of Rolling Stock, Chiltern may separately seek a financier to support the purchase.

Interested parties should register their interest to participate via the email address listed above.

This is an advertised private procurement, which shall be conducted in accordance with the terms of Chiltern's procurement policy.
