II.1.4) Short description

Hampshire County Council and Devon County Council are inviting tenders from suitably capable and qualified contractors, to establish a successor framework to the existing Southern Construction Framework (SCF).

SCF has delivered construction capital projects to over 100 public sector clients across South West England, South East England, and London.

The new SCF will operate for 4 years commencing May 2023.

This opportunity would suit contractors who embrace best practice in early contractor involvement, collaborative working and 'two stage open book contracts' on projects varying in size from £1m to potentially in excess of £200m GBP.

The framework will be available for all types of construction work, construction only or design and construct. The framework will include pre and post contract construction services for the management and development of projects.
