I.4) Type of the contracting authority

Other type

Non-profit, non-governmental organization

I.5) Main activity

Economic and financial affairs

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

WRI-NCA NCE Green Economic Modeling

II.1.2) Main CPV code

- 79311400 - Economic research services

II.1.3) Type of contract

Services

II.1.4) Short description

WRI intends to award a two-year cost reimbursement type framework (or “open) contract for contributions

to WRI National Climate Action (WRI-NCA) and New Climate Economy (NCE) technical work supporting

climate action and environmental sustainability policies in client countries as well as with other

development partners. Those contributions refer to the development of empirical frameworks, including

through modeling, research and engagement activities, that allow to advance exercises in areas of policy

identification, design, decision making and evaluation. These activities will be carried during the period

October 15, 2021 through October 14, 2023.

II.1.5) Estimated total value

Value excluding VAT: 700,000 USD

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 79311400 - Economic research services

II.2.3) Place of performance

NUTS codes

- US - United States

Main site or place of performance

Remote

II.2.4) Description of the procurement

WRI intends to award a two-year cost reimbursement type framework (or “open) contract for contributions

to WRI National Climate Action (WRI-NCA) and New Climate Economy (NCE) technical work supporting

climate action and environmental sustainability policies in client countries as well as with other

development partners. Those contributions refer to the development of empirical frameworks, including

through modeling, research and engagement activities, that allow to advance exercises in areas of policy

identification, design, decision making and evaluation. These activities will be carried during the period

October 15, 2021 through October 14, 2023.

The overall scope of work is for ongoing development of empirical frameworks, modeling, research and

engagement activities that will allow for policy identification, design, decision making and evaluation.

As part of support activities to governments and other development partners on areas of green growth,

environmental sustainability and low carbon development, all aligned to countries' Sustainable

Development Goals, the vendor will generate agreed-upon tools and methods useful for engagement

activities, capacity building, policy identification, scenario analyses, and policy assessments for the

charting of green low-carbon development pathways in targeted countries or regions.

A core set of tools or models to be developed refer to integrated, macro representations of the

environment and socio-economic systems, including climate impacts, for agreed upon countries, regions

within countries or groups of countries, which are to be developed, preferably, based on System Thinking

principles and built using System Dynamics tools. Alternative model (country or region specific) renditions

built by the vendor will be constructed from scratch, based on country or region-specific characteristics

and incorporating agreed upon policy structures. Models will be calibrated using data (national or

international sources) agreed upon with relevant stakeholders, and scenarios will be produced taking into

consideration and insights from WRI-NCA, NCE and other partners. Models generated by the vendor will

become propriety of client countries or institutions. As part of the work, the vendor will engage with WRINCA, NCE, country policymakers, and other stakeholders with a goal to advance technical support on the

basis of agreed upon Terms of References.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement

documents

II.2.6) Estimated value

Value excluding VAT: 700,000 USD

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

24

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.2) Conditions related to the contract

III.2.3) Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with a single operator

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

15 October 2021

Local time

5:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.7) Conditions for opening of tenders

Date

18 October 2021

Local time

12:00pm

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.2) Information about electronic workflows

Electronic invoicing will be accepted

Electronic payment will be used

VI.3) Additional information

(MT Ref:223942)

VI.4) Procedures for review

VI.4.1) Review body
