II.1.4) Short description

National Highways is replacing its current framework for cost estimating support for road projects.

The Cost Estimating function is responsible for delivering cost estimates, which ensures that the business has detailed cost information to make properly informed business decisions and that governance is maintained. The cost estimates prepared by the CE team are used to approve funding at various stages of the project lifecycle. All major programme budgets and funding approvals are informed by cost estimates produced by the Cost Estimating function.

This procurement seeks to bolster the in-house Cost Estimating resources.

The new framework seeks to appoint 4 service providers to deliver cost estimates for projects in the UK Government's Road Investment Strategy over a 4 year period.

VI.3) Additional information

Potential tenderers who have not yet registered for an account on National Highways' eSourcing Portal may do so at the following link

<https://nationalhighways.ukp.app.jaggaer.com/>

Note that we ask suppliers to register one account per organisation. The supplier can designate a super user for the account who will then authorise sub-accounts for any other of their staff members who require access.

If you have previously had a contract or bid for work with National Highways your company is likely to have an account already on the system. Please contact the eSourcing helpdesk via the link above if you are unable to access your account.
