Description

Original Contract Notice for Protected and Modified Civilian Profile Vehicles (PaMCPV) Support issued on 21/02/2025 listed at the following link <https://www.find-tender.service.gov.uk/Notice/006994-2025>

The contract will provide In-Service support to current MOD Civilian Armoured Vehicles (CAV), future procurements including, but not limited to, platforms procured via the Protected and Modified Civilian Profile Vehicles (PaMCPV) Framework Agreement, and other currently supported PaMCPV platforms (subject to funding).

A Protected and Modified Civilian Profile Vehicle (PaMCPV) at its simplest level is defined as a commercial off the shelf (COTS) vehicle that has been modified to provide a degree of protection and have the potential to integrate mission systems.

Examples of modifications include but not limited to:

- Integrated blast and ballistic protection. The protection levels and coverage vary between platforms.
- The integration of specified mission systems. This could include Electronic Counter Measures (ECM), communication systems, weapon mounts.
- Modification of the base vehicle to meet mobility performance and capacity requirements.

The requirement is likely to support the following types of capabilities:

Existing Fleet:

(1) CAV.

A fully protected CAV, providing a protected and discrete profile in the UK and worldwide. Platforms include, but are not limited to, Toyota Land Cruiser (LC) 200 series.

(2) Partially Protected Vehicles.

Base vehicles with partial protection to meet operational requirements. Platforms include, but are not limited to, the Toyota Land Cruiser 79 series.

(3) Future Procured Fleet:

Provide service support for future procurements including, but not limited to, procurements via the PaMCPV framework. This includes light to medium commercial vehicles (including cars, car derived vans and 4x4 variants).

The types of support the contract will provide, but not be limited to, are; provision of spares, parts codification, repairs and maintenance, Post Design Services, technical documentation and training.

The service support contract will initially accommodate a mixed fleet in the region of 150 platforms made up of various Original Equipment Manufacturers (OEM). Additional vehicles may be added to the Contract to a maximum upper limit of 400 vehicles, however, while the initial fleet will total c150 vehicles, this may reduce during the life of the Contract and the Authority does not guarantee a minimum fleet size at any one time. And, whilst no guarantee can be provided that this number will increase or decrease, the contract will be capped at 400 vehicles.

Candidates should be aware that Faculty Security Clearance (FSC) will be required for

this contract due to the classifications of capabilities being supported.

Total value (estimated)
