The Contracting Authority will incorporate a minimum 10 calendar day standstill period (or 15 days where non electronic or fax methods are used) at the point that an award decision notice is communicated to tenderers. The award decision process will specify the criteria for the award of the contract, the reasons for the decision, including the characteristics and relative advantages, the name and score of the successful tender(s), and will specify when the standstill period is expected to end or the date before which the Contracting Authority will not conclude the contract agreement.
