Section II: Object

II.1) Scope of the procurement

II.1.1) Title

M25 Motorway Network Improvements Works Call Off Framework Agreement (COFA 3)

II.1.2) Main CPV code

- 45233130 - Construction work for highways

II.1.3) Type of contract

Works

II.1.4) Short description

Connect Plus (M25) Ltd is employed by National Highways under a 30 year design, build, finance and operate ('DBFO') concession contract to manage and maintain the M25 motorway and all associated arterial link roads ('Project Road'). Under the terms of the concession contract, National Highways from time to time instructs and sponsors Connect Plus to procure civil engineering and technology works associated with improvement schemes for the Project Road. There is a pipeline of works associated with improvement schemes for the Project Road. Therefore, Connect Plus has procured a new framework to replace the existing framework on its expiry

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £167,000,000

II.2) Description

II.2.2) Additional CPV code(s)

- 34920000 - Road equipment
- 45221000 - Construction work for bridges and tunnels, shafts and subways
- 45223000 - Structures construction work

II.2.3) Place of performance

NUTS codes

- UKJ - South East (England)

Main site or place of performance

M25 Motorway, adjoining arterial roads and interchanges making 440km of strategic road network. Assets include five tunnels, QEII Bridge, M4 elevated section among the 2,500 structures, and other locations as instructed by National Highways.

II.2.4) Description of the procurement

Connect Plus M25 Ltd is employed by National Highways (formerly Highways England) under a DBFO agreement (Design, Build, Finance and Operate) contract to manage and maintain the M25 motorway and all associated arterial link roads over a 30-year period, from 2009. The works envisaged under this framework agreement will comprise Civil Engineering and Technology improvements instructed by National Highways (including but not limited to structures, geotechnical, junction improvements, roadside technology and environmental) and in some instances, combined with road infrastructure renewals works related to Civil Engineering and Technology. There is no guarantee of the Call Off Contracts to be awarded. The works will be built into contracted packages typical award value of Packages are likely between £500,000 to £3,000,000, excluding VAT. The framework contractor will in most cases be required to undertake the role of Principal Contractor. Some or all of the design of the works may be included in a number of the work packages. Examples of Civil Engineering works that may be required under the framework agreement include: signalling gantries; realignment and widening of carriageways and associated kerbing and footpaths; new earthworks; drainage and pavement works for new roads; cycleways and footways; drainage improvements including outfall works; services diversions; lighting; fences and gates; traffic barriers; signs and markings; traffic management; noise abatement schemes; strengthening of reinforced concrete or other structures; complex bridge replacement / construction; works to walkways and footpaths; works to pedestrian and maintenance access, improvements to vehicle restraint systems; landscaping; ground engineering and earthworks structuring and piling; new street lighting; Investigations, including Ground investigations, surveys, testing and site clearance as enabling works. Examples of Technology works that may be required under the framework include: supply, install, test and commission signs and signalling; vehicle height and width sensor technology; new traffic signals and road barrier systems; variable speed limit and managed motorway or equivalent signals and signing; UTC and traffic signals; ramp metering; CCTV cameras and systems; matrix signs with associated network cabling and other infrastructure; midas loops and non-intrusive replacements; VMS; incident detection systems; safety cameras; digital enforcement camera systems; enhancements to control rooms and systems.

II.2.5) Award criteria

Quality criterion - Name: As in the detailed procurement documents / Weighting: 80%

Cost criterion - Name: As in the detailed procurement documents / Weighting: 20%

II.2.11) Information about options

Options: No
