II.1.1) Title

UXPLORE – Digital Connectivity Demonstrator

Reference number

ERDF - PD-586-21 (DCD - 5G) - AP

II.1.2) Main CPV code

- 72000000 - IT services: consulting, software development, Internet and support

II.1.3) Type of contract

Services

II.1.4) Short description

Coventry University is leading a game-changing digital connectivity initiative which will benefit small and medium-sized enterprises (SMEs) in Coventry and Warwickshire, by providing a range of physical and virtual services through a network of activities across the region. The uxplere project aims to: • Support SMEs across the CWLEP area to harness the benefits of digital connectivity with a focus on future development including new 5G infrastructure. It will facilitate innovation and drive productivity through the development and commercialisation of new products, services, and business models. • Encompass a broad range of connectivity infrastructure, helping companies to maximise business opportunities by enhancing digital know-how for businesses - spanning superfast broadband, 4G, fibre, and the cutting-edge innovation of 5G. • Enable businesses to develop and showcase new products and services across multiple sectors e.g. transport, mobility, healthcare, manufacturing,

- 32400000 - Networks

II.2.3) Place of performance

NUTS codes

- UKG33 - Coventry

II.2.4) Description of the procurement

Coventry University is leading a game-changing digital connectivity initiative which will benefit small and medium-sized enterprises (SMEs) in Coventry and Warwickshire, by providing a range of physical and virtual services through a network of activities across the region. The uxplere project aims to: o Support SMEs across the CWLEP area to harness the benefits of digital connectivity with a focus on future development including new 5G infrastructure. It will facilitate innovation and drive productivity through the development

and commercialisation of new products, services, and business models.o Encompass a broad range of connectivity infrastructure, helping companies to maximise business opportunities by enhancing digital know-how for businesses - spanning superfast broadband, 4G, fibre, and the cutting-edge innovation of 5G.o Enable businesses to develop and showcase new products and services across multiple sectors e.g. transport & mobility, healthcare, manufacturing, creative industries, financial services.The support provided by the project (combined with partner inputs from the Coventry and Warwickshire Growth Hub, Chamber of Commerce, LEP, local authorities, and commercial organisations) will enable businesses to embark on a digital enhancement journey, and then to progress along the technology continuum to seize the digital commercial opportunities such that are rapidly emerging and continue to evolve.The focus of the activity will be to engage with SMEs through a cohort-based, collaborative learning approach - to increase the demand for (and development of) new digitally enabled products and services. Through a combination of diagnostic assessment (technical, commercial) and a tailored programme of development, exploration and enhancement activity, the uxplore project will help participating SMEs realise the potential for digital technologies to drive their business forward.Please note a contract notice was published for this tender with the reference 2021/S 000-018945.
