Scope

Description

Northern is intending to initiate a future procurement process for the supply of a wide range of filters required for use across multiple rolling stock fleets.

The scope of the procurement is to include, but not be limited to, the supply of air filters, oil filters, fuel filters, hydraulic filters, and other specialist filtration products necessary for the continued safe and reliable operation.

The supplier will need to demonstrate the capability to provide consistent quality and specification compliance, maintain continuity of supply, and offer flexibility to support variable demand profiles and maintenance schedules.

This notice does not constitute a call for competition but is intended to inform the market of a potential future opportunity. Interested suppliers are encouraged to monitor forthcoming publications.
