II.1.4) Short description

Crown Commercial Service (CCS) as the Authority intends to put in place a Pan Government Collaborative Agreement for the provision of Offsite Construction Solutions as a multi-Lot framework agreement available for use by UK public sector bodies and future successor organisations, which includes Central Government Departments and their arm's length bodies and agencies, the wider public sector and third sector including, but not limited to, local government, health, education, police, fire and rescue, nuclear, rail, housing associations and charities.

This framework will provide public sector organisations with the design, fabrication, physical delivery, construction or installation and maintenance of prefabricated buildings, as well as direct access to manufacturers for a complete range of offsite construction solutions.

This framework will run for 4 years, with an option to extend the lifetime of the framework by an additional 3 years.

The lotting structure of this framework has been determined as a result of the market engagement and is detailed below.

Further information is included in the Additional Information section VI.3.

On 2.4.2014 Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders should make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:

<https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders must be able to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.

Refer to <https://www.ncsc.gov.uk/information/cyber-essentials-faqs> for more information.

Some purchases under this framework Agreement may have requirements that can be met under this Framework Agreement but the purchase of which may be exempt from the Procurement Regulations (as defined in Attachment 1 – About the framework within the invitation to tender documentation). In such cases, Call-offs from this Framework will be unregulated purchases for the purposes of the Procurement Regulations, and the buyers may, at their discretion, modify the terms of the Framework and any Call-off Contracts to reflect that buyer's specific needs.

CCS reserves the right to award a framework to any bidder whose final score is within 1% of the last position.

CCS intends to host a bidder conference following the launch of the procurement. This will take place at 11:00am on 1st September 2022. If you are interested in attending the conference, please express your interest by emailing offsite@crownccommercial.gov.uk by 12pm on 30th August. Your email must clearly state the name of your organisation and contact details for the individual(s) who wish to attend. Please note, we are unable to answer any questions during this conference. All questions must be submitted via the eSourcing tool.

Registering for access:

This procurement will be managed electronically via the eSourcing tool. This will be the route for sharing all information and communicating with bidders. If you have recently registered on the eSourcing tool for another CCS procurement you can use the same

account for this new procurement. If not, you will first need to register your organisation on the portal.

Use the following link for information on how register and use the eSourcing tool:
