### Scope

### Description

Northern is intending to initiate a future procurement process for the supply and support of engine radiators and associated cooling system components used across its British Rail Class 15x rolling stock fleets.

The scope of the procurement will include, but not be limited to, the provision of radiators, coolant pumps and other critical components necessary to ensure the continued safe, efficient, and reliable operation of the cooling systems across these fleets.

Suppliers will be expected to demonstrate proven capability in delivering components that meet stringent quality and performance standards, ensure continuity of supply, and provide flexibility to accommodate varying maintenance schedules and operational demands.

This notice does not constitute a call for competition but is intended to inform the market of a potential future opportunity. Interested suppliers are encouraged to monitor forthcoming publications for further details.
