Scope

Description

We are pleased to announce our intention to establish a framework for Adults Commissioned Placements, aimed at providing comprehensive support services for adults requiring specialised care. This framework will cater to individuals in need of personalized placements, including residential care, supported living, and other tailored services that promote well-being and independence. The objective is to ensure that adults receive the appropriate care and support to enhance their quality of life and meet their specific needs. We are considering various service models that demonstrate the capability to deliver high-quality, evidence-based commissioned placement solutions. This initiative aims to foster a supportive community through effective and compassionate care programs for adults.
