II.1.2) Main CPV code

- 50720000 - Repair and maintenance services of central heating

II.1.3) Type of contract

Services

II.1.4) Short description

Procure Plus are a value focused, not for profit company that specialises in the procurement of goods and services related to both the new build, repair, and maintenance of social housing.

Procure Plus wishes to procure and enter into a framework agreement for the servicing and repair of gas and renewable heating equipment. This will cover the annual servicing, maintenance, and repair of domestic gas fired central heating installations, domestic miscellaneous gas appliances, solid fuel appliances and domestic renewable heating systems. It will also cover the annual servicing, maintenance, and repair within domestic and non-domestic settings of commercial gas fired heating installations, HVAC systems and commercial renewable heating systems. The servicing, maintenance and repair of renewable heating systems covers both air source heat pump and ground source heat pump systems for both domestic and commercial heating equipment.

In accordance with the provisions of the Public Contract Regulations 2015 (63)(7), Bidders on Lot 1 and Lot 2 are advised that Contractors who are appointed to this framework agreement will not be permitted to sub-contract the responsibility for the service, maintenance, and repair of gas appliances. Due to the business criticality and risk to both the customer organisation and the resident, the responsibility for the service maintenance and repair of gas appliances will be the responsibility of the Contractor who is appointed to the framework agreement. Contractors appointed to the framework agreement will be permitted, with the agreement of the Customer, to utilise subcontractors to complete the works required to solid fuel appliances and to supplement the service, maintenance, and repair of gas appliances in exceptional circumstances. For example, additional volume caused by extreme weather conditions and / or the geographical spread

of properties.

Bidders are permitted to sub-contract the responsibility for the service, maintenance, and repair of renewable technologies within scope of the framework agreement.

NUTS codes

- UK - United Kingdom

Main site or place of performance

The place of performance is described as the United Kingdom, and this is intended to

indicate that individual Customers of the framework agreement will own and manage property across some or all of this area. Contractors who are appointed to the framework agreement will not be required to work across the entirety of the UK and they will be able to limit their participation in call off processes to those opportunities that align with the geographical areas in which their organisation operates.

II.2.4) Description of the procurement

This Lot is for the annual servicing, maintenance, and repair of domestic gas fired central heating installations, domestic miscellaneous gas appliances, solid fuel appliances and domestic renewable heating systems.

The servicing of gas appliances will be undertaken through a 3* service and maintenance provision. Repairs that fall outside the 3* service package are also included within the scope of this Lot.

The servicing, maintenance and repair of renewable heating appliances covers both air source heat pump and ground source heat pump systems. Repairs that fall outside the service package are also included within this Lot.
