<https://www.wingparish.org/>

Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted to the above-mentioned address

I.6) Main activity

Electricity

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Carry Out Contestable Work and Install Power Supply to the New Pavilion

II.1.2) Main CPV code

- 65300000 - Electricity distribution and related services

II.1.3) Type of contract

Services

II.1.4) Short description

To carry out the contestable work from the sub station to the recreation ground.

Install the required housing for the new supply to the recreation ground.

To connect the electricity supply from the new housing to the new pavilion.

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for one lot only

II.2) Description

II.2.1) Title

Lot No

1

II.2.2) Additional CPV code(s)

- 65300000 - Electricity distribution and related services

II.2.3) Place of performance

NUTS codes

- UKJ13 - Buckinghamshire CC

Main site or place of performance

Leighton Road, Wing and on the Recreation Ground, Leighton Road, Wing

II.2.4) Description of the procurement

A new 180kva electrical supply is required for the new pavilion built on Wing recreation ground, Leighton Road, Wing, Bucks, LU7 0NW.

This is a summary of the scope of the work:

Install a new LV main from the new LV cabinet to the site.

Connect a new service off the new main and terminate to the kiosk, network upgrade is required to be carried out prior to the connection.

Connect the new service from the kiosk to the new pavilion.

UKPN will be upgrading the substation at Park Gate prior to the connection.

UKPN have provided a quote, excluding the work on the recreation ground to the pavilion. The quote includes both uncontestable and contestable work.

The uncontested work they are to carry out is:

LV Underground Mains

Distribution unit termination (LV Board/Cabinet)

Excavate, lay & reinstate 300mm LV waveform mains cable in a footway surface type.

Pot end of three phase LV CNE service cable & removal of any redundant equipment.

Please provide a design for the contestable work and break the quote down into two stages:

Lot 1. Install a new LV main from the new LV cabinet to the site.

Connect a new service off the new main and terminate to a kiosk, network upgrade is required to be carried out prior to the connection.

Lot 2. Connect the new service from the kiosk to the new pavilion.

We would be happy to arrange a site visit to discuss the work required.

Additional information:

- There is a mains gas supply running through the recreation ground, please see the map below. This can only be used as a guideline as a new plastic pipe was installed about 10 years ago and the exact location of the pipe is not known. Depending on the path of the new electric supply, the gas company may need to be onsite when trenching work is carried out.
- The electric supply cannot run through the football pitch.
- There are a few trees on the recreation ground that need the roots protected due to their size. Four are around the tennis courts and one is located between the football pavilion and the tennis courts. There are no TPOs on any trees but we need to follow best practice in preserving the trees and the root systems.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

1 October 2023

End date

31 January 2024

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: Yes

II.2.11) Information about options

Options: No

II.2.14) Additional information

All tenders must be submitted in writing and cannot be excepted electronically.

All tenders received will be opened at the same time in front of a minimum of three Councillors and the Clerk to the Council.

II.2) Description

II.2.1) Title

Lot No

2
