Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- Extreme urgency brought about by events unforeseeable for the contracting authority

Explanation:

We placed a Contract Notice via the Find a Tender Service (FTS) in December 2022 for the original services. Following an Open procedure, we received bids from 3 consortia, led by Grant Thornton UK LLP, PricewaterhouseCoopers LLP and PA Consulting Ltd. PricewaterhouseCoopers LLP was awarded the contract as the highest scoring bidder.

Separate to the original contract award, additional capacity is required. This is a matter of strict necessity brought about by the following circumstances, all which were not foreseeable as follows:

- In April 2023 after the tender process concluded, Ofwat secured approval from HMT to increase the size of its budget to enable delivery of additional regulatory work on behalf of customers and the environment. The scale of work required under a number of areas - including PR24 where infrastructure investment will be larger than previous price reviews - has increased as a result.
- The need for Ofwat to have access to a wide range of advisors with the relevant capability and capacity and who are in a position to provide that support to Ofwat independently.

To address this, Ofwat is undergoing a period of growth in its in-house capacity and further procurement to bolster its access to third party support. However, this will not be fully completed in time to for the Price Review process. Business Plans are received in October 2023 and we do not have sufficient time to retender for potential additional capacity to ensure the successful Delivery of PR24, including time for the necessary onboarding.

To ensure successful delivery of PR24 we require flexible access to high quality resources across a range of technical skillsets. Therefore, it is the intention to award a contract to the two unsuccessful lead bidders from the original Open Procedure who also demonstrated access to these resources, along with their ability to deliver and to ensure best quality outcomes. The contracts will be used on a need only basis, in particular for those projects where the existing Delivery Partner contract may be unable to fulfil the

requirement and for services of a lower value, up to a capped valued of GBP 1m +VAT for each supplier. It is our intention to adopt the original advantageous terms specified in the original tender process to ensure value for money.

We welcome any questions or comments regarding this VEAT notice during the prescribed period – please contact the Ofwat procurement team at procurement@ofwat.gov.uk
