#### **II.1.4) Short description**

NHS Shared Business Services act in an Agency capacity for and on behalf of its customers (Approved Organisations) - existing and new. These comprise of NHS and Social Care organisations (whether acting individually, or on behalf of, or together as members of any consortia) along with any other public or private sector bodies which NHS SBS authorises to use the resulting Framework.

NHS Shared Business Services Limited (NHS SBS) intends to put in place a Framework Agreement for the provision of Healthcare Clinical Information System and related Goods and Services for Healthcare to be used by NHS SBS Approved Organisations.

The Procurement of a Framework for Healthcare Clinical Information Systems (HCIS) will assist health and social care providers to collate and manage data that support healthcare staff in the assessment, planning and delivery of better patient care across all healthcare settings. Information systems allow for improvement in the quality of patient records and the efficient handling and processing of that data. Information Systems aim to increase effectiveness and efficiency of clinical data and resource base for service provision, research and development, clinical audit, teaching, and training activity.

Additional benefits of HCIS include improvements in the management and administration of clinical and non-clinical services while improving the reporting mechanism and ability to extract required information from the system in timely and accurate manner- improving data-driven decision making of staff.

The associated Framework and Call-Off contract(s) will allow, within certain defined boundaries, both Supplier and Approved Organisations a bilateral route to market that presents an assured and transparent methodology and structure when entering into contract.

Our Approved Organisation list can be found at:

<https://sbs.nhs.uk/proc-framework-agreements-support>

The Framework will be structured using the following Lots;

Lot 1 - Core Healthcare Clinical Information Systems including Electronic Patient Record (EPR) and Patient Administration Systems (PAS)

Lot 2 - Urgent and Emergency Care systems

Lot 3 - Theatre Systems

Lot 4 - Child Health Systems

Lot 5 - Maternity Systems

Lot 6 - Electronic Prescribing and Medicines Administration (EPMA) Systems

Lot 7 - Integration Platforms

Lot 8 - Shared Care Records

Lot 9 - HCIS Implementation Support Services

We are committed to working with Suppliers who are dedicated to Sustainability and Social Value and there will be a significant weighting on these elements in the tender.
