Scope

Description

The scope of the procurement will include, but not be limited to, the provision of bolts, nuts, screws, washers, rivets, clips, and other fastening components essential for the safe, secure, and efficient maintenance of rail vehicles.

Suppliers will be expected to demonstrate the ability to provide a wide range of high-quality, specification-compliant products, ensure continuity of supply, and support varying demand profiles aligned with maintenance schedules and operational requirements.

At this stage, it is anticipated that the procurement will be conducted as a single lot to streamline supply and ensure consistency across the network.

This notice does not constitute a call for competition but is intended to inform the market of a potential future opportunity. Interested suppliers are encouraged to monitor forthcoming publications for further details.
