Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Strategic Overpumping

Reference number

2023 0800

II.1.2) Main CPV code

- 42122000 - Pumps

II.1.3) Type of contract

Supplies

II.1.4) Short description

The procurement of Strategic Overpumping, as per the below ;

Core Requirements ;

Full hydraulic design/calculations to meet Anglian Waters duty flow requirements, including potentially for flows of over 3000l/s.

Provision of full 3D designs for installations and all structures e.g., pipe bridges. Structural pipework and pipe crossing design.

All designs must include flow monitoring to confirm compliance with client duty flow requirements.

The Supplier will provision a complete range of appropriate auxiliary items (such as hoses and pipework up to 1000mm dia, fittings, and ancillary equipment) suitable for the plant and equipment they supply, to be agreed and quoted at the time of order enquiry and placement.

All Suppliers to the framework must have capability to safely deliver to any of our 4 regions and be able to off-load equipment, for example, using their own HIAB (or equivalent).

The Supplier is responsible for scheduling deliveries, off-loading, installation and

commissioning (including testing and handover), compliant with Anglian Water Specifications. At the end of hire the Supplier is responsible for decommissioning, dismantling, loading and return transport.

The Supplier will provide remote monitoring and management, including live and historic flow rates, with read only access to Anglian Water teams. Ability to interface with Anglian Water telemetry a bonus.

In the event of a breakdown, there is a required response time of 4 hours.

Hire pumps provided are expected to be durable and operate without issue. It is the Supplier responsibility to ensure equipment is fully maintained and fit for the tasks and operation required as agreed at the point of purchase order placement.

The Supplier should have the relevant expertise to be able to manage a range of scenarios from those where the user has defined their requirement by understanding the challenge including rag management, customer interface and offer a pumping solution, or range of alternative options across Anglian Water.

Where required by Anglian Water (and where relevant) the Supplier shall provide technical support at no additional cost to cover the following:

- Assistance in providing the lowest energy, carbon, HVO and cost solutions
- Technical information on their range of products and services
- New Technology
- Process improvements

II.1.5) Estimated total value

Value excluding VAT: £4,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKH - East of England

II.2.4) Description of the procurement

As per the short description

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

96

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

Section IV. Procedure
