#### **II.1.4) Short description**

The CA is planning on commissioning a data platform. The objective of the project is to design and setup a new Microsoft Azure Data Platform which will bring together all data at any scale to enable real-time analytics and provision of insights through automatised data loading, cleansing and processing, providing a basis for automated reports and visualisations.

The requirements for this part of the project are to have the Microsoft Azure Data Platform set up and to work with the CA to load several data sets, clean and process them using Azure Synapse, ensuring that accurate reports can be produced, suitable security measures and privacy settings are setup, and that the CA has the necessary skills to perform all these tasks for future data sets.
