On 2.4.2014 Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All suppliers should make themselves aware of the changes as it may impact on this requirement. The link below to Gov.uk provides information on the GSC at:

https://www.gov.uk/government/publications/government-security-classifications.

Cyber essentials is a mandatory requirement for central government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the cyber essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, suppliers must be able to demonstrate they comply with the technical requirements prescribed by cyber essentials, for services under and in connection with this procurement.
